Pakvia

FOR CAMPERVAN AND MOTORHOME RENTAL COMPANIES

Give every customer a road book.

A day-by-day itinerary, overnights and service points that suit your vehicle, your return instructions: your customer sets off with peace of mind, and you get fewer calls.

No account needed · 4 languages · Your branding · Printable

2027 pilot offer
Free for the first rental companies, in exchange for their feedback.

THE SITUATION

Your customers plan their trip… after booking.

Many are travelling by campervan for the first time. The same questions keep coming, often by phone, often during the rental.

“Where do we empty the tanks?”

Service points, water, gas: what is obvious to you is not to them.

“Where do we sleep tonight?”

Without a plan, the evening ends in an unsuitable or forbidden car park.

“Will we fit under that barrier?”

Height, length, weight: the wrong place can damage your vehicle.

How it works

1

Prepare your template itineraries

Your classics (“Gorges and lakes in 5 days”…) are generated once for the real size of your vehicles. You fine-tune the stops.

2

Create the customer’s road book

One click from the template, then the customer’s first name, departure date and rented vehicle.

3

Send the link

By text or email, as soon as they book. The customer opens it without an account, in their language, and can print it.

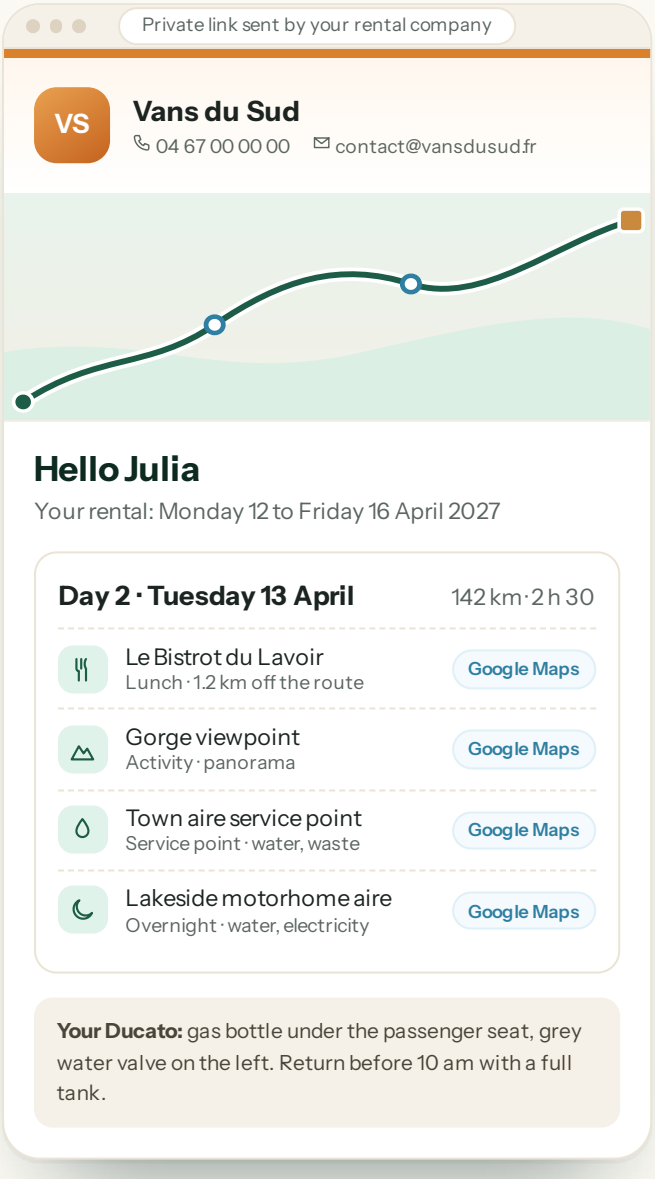

One template, as many road books as customers

The copy keeps the route, the days and the stops without a new calculation: your customer gets their road book straight away.

1 click
per customer

WHAT YOUR CUSTOMER RECEIVES

A clear road book, in your name.

Day by day, dated

Every day shows its date, distance, driving time and stops.

Made for your vehicle

Overnights take the real height, length and weight of your vehicle into account; service points are planned.

Your branding

Your logo, colour, phone number, return instructions and the vehicle's practical notes.

Google Maps at every stop

One link per stop and per day to start navigation.

In their language

French, English, German or Dutch: the customer chooses.

Print it or keep it as a PDF

One page per day, with the route outline and GPS coordinates.

What you manage

Your fleet

Each vehicle with its dimensions and notes (gas, water, waste).

Your templates

Your reference itineraries, reused for every customer.

One link per customer

Cut at any time, replaced in one click.

Tracking

See whether the link was opened, when and in which language.

WHY RENTAL COMPANIES USE IT

Fewer calls, calmer customers.

Fewer calls during the rental

The usual questions are answered in the road book: where to sleep, empty the tanks, eat.

An extra that sets you apart

A road book in your name, sent at booking, stands out in your listing and in your customers' reviews.

Foreign customers welcomed

The same road book reads in French, English, German or Dutch.

Customer data kept to a minimum

Only the first name and departure date, erased 30 days after the rental. No account for the customer.

Launch prices

Solo	Agency	Fleet
Up to 3 vehicles	Up to 15 vehicles	Unlimited vehicles
€19 excl. VAT/mo	€49 excl. VAT/mo	€99 excl. VAT/mo

Prices excluding VAT, no commitment on monthly plans, 20 % off yearly. Details in the price list.

2027 PILOT · LIMITED PLACES

Try Pakvia free for the whole season.

We are looking for 3 to 5 rental companies for the 2027 pilot: full free access in exchange for your feedback. Write to us and we will build your first road book together.
